

Participant Rules — HUMAS System

1. Purpose of Participation

HUMAS System unites people who act consciously, with respect for human energy and contribution.

Each participant accepts these principles as the foundation of interaction within the system.

2. Core Principles

1. Honesty and transparency — all information, documents, and actions must be truthful.
2. Responsibility — participants are personally responsible for the accuracy of their data and confirmations.
3. Respect — no aggression, discrimination, or spam is tolerated.
4. Energy = Value — every action should create real, measurable benefit.
5. Confidentiality — personal data is protected and not shared without consent.

3. System Rules

- Each participant has a unique HUID.
- All documents are reviewed and verified by a curator.
- HUNIT points are awarded only for verified actions.
- Any attempt to falsify documents or data results in account suspension.
- One person — one profile. Multiple accounts are prohibited.

4. Energy Ethics

- HUMAS System evaluates human energy — physical, intellectual, emotional, and cognitive.
- Every action must align with the spirit of creation and respect toward others.
- Actions that distort the meaning of energy (manipulation, duplication, falsification of glyphs, etc.) are strictly forbidden.

5. Participant Rights

- To receive HUNIT for verified actions.
- To convert HUNIT into HUMAScoin according to system rules.
- To undergo certification and advance to higher levels.
- To participate in the development of the ecosystem, propose ideas and improvements.

6. Responsibility and Sanctions

- Violations result in a warning, temporary suspension, or profile removal.
- In cases of serious violations (fraud, document forgery), accumulated HUNIT may be annulled.

7. Acceptance of Rules

Registration in HUMAS System implies full agreement with these rules.

The system reserves the right to update the rules as the project evolves.
